

61 SERIES

Multi Stack Filter Housing

The **61 Series** multi cartridge housing is available with 3, 5, 7, 10, 12, 15, 18, 19 and 22 element stacks up to 40" long. The top opening style is equipped with a Cast Vee* clamp as standard for pressures up to 10 bar g.

These housings are widely used where low capital cost is of prime importance. Being floor mounted and therefore free standing, these housings will suit most pre-filtration applications. Bolted closures are an option available for all models.

The **61 Series** will accept either standard Double Open End or Single Open End cartridges. This includes the full range of Amazon and industry standard cartridges ranging from 0.1 to 500µm with nominal lengths of 10, 20, 30 and 40".

Accessories available include pressure gauge and vent valve kits, drain valves and bolt down plates. A new differential pressure gauge is also available to provide clear process feedback and aid in filtration optimisation.

* Rathmann type clamp standard on 19 and 22 stack vessels

Accessories	
Pressure Gauge and Vent Valve Kit	
Pressure Gauge and Auto Vent Valve Kit	
Ball Valve and Nipple	
Differential Pressure Gauge Kit	
Cast Vee Clamp with Interlock (3 and 5 stack only)	

Note: 7, 12, 18 and 22 only accept 66.5mm maximum diameter cartridges.

Features and Benefits

- Differential pressure gauge accessory available to retrofit for process feedback
- Universal cup allows the use of plug in (Code 3 and Code 8) or DOE cartridge styles in the same housing
- Integral vent, clean and dirty drain sockets aid efficient filter changeout
- Vee clamp closure uses unique 'W' seal for reliable leak free operation (not available on 6119/22)
- Internally and externally electropolished to aid cleaning and hygiene
- Cast compression nut with integral PTFE seal for easy hand tight cartridge installation
- Product is DWI approved (installation into the public water supply)
- Full customised housing service available to ensure optimised installation and operation in your process
- Unique safety interlock device available to prevent accidental opening under pressure

Product Range

Amazon Filters design and manufacture an extensive range of liquid filtration systems, providing one of the widest selections of filtration vessels, depth filters and pleated cartridges available today, ensuring excellent process and filter compatibility. As one of Europe's leading manufacturers of filtration systems, Amazon Filters is able to offer a solution to meet all filtration requirements. Amazons' filters are manufactured in clean room conditions and all products come with detailed Product Validation Guides and Technical Support documentation.
