Subject: REACH Compliance Status

October 2009

Dear Customer

We are writing to inform you of Amazon Filters Ltd (AFL) current progress in relation to the REACH Directive.

Please be advised we have now had replies from our suppliers with regard to the substances used to make these articles. We can confirm they have informed us that at the present time the raw materials they use do not contain any substances that require registration.

We have established an inventory of materials affected by the REACH directive.

We will continue to monitor our suppliers to ensure that any changes in raw materials will be recorded and if required they will be registered as the REACH directive states.

We hope that this information is sufficient to inform you of our approach and progress with regards to compliance with REACH. We will continue to provide you with additional updates of our REACH implementation activities as they develop. In the meantime, if you have any questions about REACH, please do not hesitate to contact us.

Paul Wallace.
Reach Coordinator Europe
